Experience

1. September 2023 - Current;

Position: Senior Frontend Engineer

Company: Viewcy USA, (remote)

<https://www.viewcy.com/>

- Led Development and Maintenance: Directed the development and maintenance of our web application using Next.js, iOS app, and Android app utilising React Native technologies.
- Ensured Cross-Platform Consistency: Managed the projects to maintain a consistent user experience across multiple platforms including web, iOS, and Android.
- Optimised Functionality and Performance: Implemented strategies to optimise functionality and performance of web and mobile applications, ensuring a high-quality user experience.

2. July 2022 - August 2023;

Position: Frontend Engineer

Company: Cofenster Germany, (remote)

<http://cofenster.com/>

- Spearheaded the development of visually stunning video templates as a Frontend Engineer.
- Directly reported to the Head of Engineering and actively collaborated with other senior developers to ensure code quality through thorough code reviews.
- Worked closely with designers to translate client requirements into pixel-perfect templates.
- Utilised a technology stack consisting of TypeScript, React, Styled Components, and Remotion in day-to-day tasks.

3. April 2023 - November 2023;

Position: Senior Software Engineer,

Company: Rapidream USA, (remote-part time)

<https://rapidream.com/>

- Led the development of multiple high-end client applications using React.js, Express, Node.js, Turbo, Zod, and Prisma, all written in TypeScript.
- Collaborated closely with the company's CEO as the lead developer for three key projects.
- Played a pivotal role in gathering project requirements and maintained direct communication channels with clients throughout the entire development lifecycle.

4. November 2021 - June 2022;

Position: Lead Software Developer

Company: EvoVisions, Czech (remote)

<https://www.linkedin.com/company/evo-visions>

- Managed and developed a wide range of frontend projects utilising React, React Native, Next.js, Gatsby, and Vue.
- Led the maintenance and development of ASP.NET and Node.js APIs.
- Reported directly to the CEO and assumed responsibility for workload management and code reviews for a team of four developers.
- Spearheaded the creation of comprehensive design systems for the client's company and successfully implemented them across various projects.

5. November 2018 – November 2021;

Position: Technical Lead

Company: Digikids - iLabAfrica, Strathmore University,

<http://www.ilabafrica.ac.ke/>

- Pioneered and orchestrated the institute's transition to e-learning in 2020, a pivotal achievement during the global shift to online education.
- Provided dynamic leadership and management for all bootcamps conducted in 2020 and 2021, ensuring their success and impact.
- Collaborated with prestigious educational institutions, including Strathmore University's iLab, Nova Pioneer International Schools, and Idara MSB (Saiffee Park).
- Organised, led, and delivered comprehensive coding and robotics bootcamps, empowering students with valuable technical skills and knowledge.

Education

Certificate in Design;- Google (Coursera)

Bachelors of Science in Software Engineering;- (KCA University)

KCSE Lake Ol - Bolossat Secondary School - A in both Math & Physics (99th Percentile in Kenya)

Skills & Certifications

Cloud Core: Certified Through IBM

Istio and IBM Cloud Kubernetes Service: Certified Though IBM

Docker Essentials: Certified Though IBM

Certified in JavaScript, TypeScript, and ES6

Proficient in ReactJS, HTML, and CSS

ISO/IEC 27001 Information Security Associate™ – Certified: Obtained through Skill Front, demonstrating expertise in information security.
